Soil Treatment in the South East Workshop 9

University of Greenwich, Medway Campus, Pilkington Building,
20th June 2012

A workshop for developers, consultants, landowners, waste operators and regulators to discuss the need for materials treatment in the SE, the need for treatment centers for construction and demolition wastes, including contaminated soils and recent developments in the regulations governing waste and materials re-use and recovery.

There are opportunities for displays stands for contractors and consultants charged at £200

Win a certificate and unique prize in our:

Photographic competition - Send your most artistic shot of a materials recovery or a remediation site in hard copy or electronic

Poster-paper competition: Best remediation project in the SE or the most innovative approach to soil/wastes/recovery dealing with brownfield site issues, invasive weeds, security, monitoring etc.

Judges decision final

Contact Marilyn Croucher for further details
